- **HF + SMS**
- **Fuel Tank Safety**
- **EWIS**

LANGUAGES

- Ukrainian (native)
- English (Upper-Intermediate)
- Russian (fluent)

ABOUT ME

Avionics-focused engineer with over 20 years of experience in **Line, Base** and **Transit** maintenance within **EASA PART-145** approved organisations.

Specialised in advanced avionics troubleshooting, complex defect rectification, system modifications and electrical integration tasks.

Extensive hands-on expertise in avionics systems including FMS, EFIS, Autopilot, Navigation, Communication, Electrical Power Distribution and aircraft data network systems.

Ability to perform complex fault isolation using **AMM, TSM, WDM** and advanced diagnostic equipment with minimum downtime impact.

TYPE RATINGS

- Boeing: **737-600/700/800/900 (CFM 56)**
- Boeing: **737-7/8/9 (CFM LEAP-1B)**
- ATR: **42-200/300** series (PWC PW 120)
- ATR: **42-400/500/72-212A** (PWC PW 120)
- ATR: **72-100/200** series (PWC PW 120)
- Boeing: 767-200/300 (PW4000) (UA)
- Boeing: 737-300/400/500 (CFM-56) (UA)

WORK EXPERIENCE

Fleet Air International — 12/2022 - Present

B1/B2 Base/Line maintenance Engineer

- **Base maintenance** of the Aircraft ATR 42-300 / ATR72-200.
- Support of AOG events and remote recovery, coordinating with operations and MCC to minimize delays.
- Complex avionics troubleshooting activities.
- Electrical wiring modifications iaw WDM and SB instructions.

AzurAir Ukraine — 04/2018 - 12/2022

B2 Line maintenance Engineer

- Line maintenance Boeing 737-700/800/900
- Line Maintenance Boeing 767-200/300
- Complex avionics troubleshooting activities.
- Performed aircraft technical support during flight operations.
- Support of AOG events and remote recovery, coordinating with operations and MCC to minimize delays.

EDUCATION

National Aviation University — 07/2004

UKRAINE, KYIV

Faculty: **Aircraft Equipment**

Specialty: **System Control and Maintenance Engineer**
